SUMMARY

Computer Science (AI) undergraduate with hands-on experience in building and deploying full-stack MERN applications. Skilled in React.js, Node.js, Express.js, MongoDB, and AWS, with experience in GitHub collaboration, Agile workflows, and CI/CD using GitHub Actions.

EDUCATION

Parul University, Vadodara, Gujarat

Bachelor of Engineering and Technology — Computer Science (Artificial Intelligence) | 7.25 CGPA

Pursuing (2023 – 2027)

Narayana Junior College, Visakhapatnam

Class XII | 59.6%

Passout: April 2023

N.S.V School, Jagityal

Class X | 100%

Passout: April 2021

SKILLS

Languages: JavaScript, Java, SQL, python

Frameworks & Libraries: React.js, Node.js, Express.js, Socket.io

AI: AI API Integration

Databases: MongoDB (NoSQL), MySQL

Cloud & Deployment: AWS (EC2, S3, Lambda, IAM, CloudWatch), Vercel, Render

Tools: GitHub, GitHub Actions, Postman

Soft Skills: Team Work & Collaboration, Communication, Adaptability

PROJECTS

Codesuu — Real-Time Collaborative Coding Platform

Link-> <https://codesuu.tech/>

Tech Stack: MongoDB · Express.js · React.js · Node.js · Socket.io

- Independently built and deployed a full-stack collaborative coding platform with real-time multi-cursor editing, 24+ language code execution, and integrated video/audio conferencing.
- Designed secure room-based session isolation with Clerk authentication, host-controlled RBAC, Zod validation, API rate limiting, and protected backend APIs.
- Developed an Admin Dashboard for live session monitoring, user management, suspicious activity logs, admin actions, and real-time platform broadcasts.

CERTIFICATIONS

- AWS Academy Cloud Foundations — Credly Badge (AWS, Feb 2026)** [\(View\)](#)
- AWS Deploying Serverless Applications (AWS Training & Certification, Dec 2025)**
- Computer Networks and Internet Protocol (NPTEL / IIT Kharagpur, 2025)**

COMMUNITY

AWS Community Day — Attendee 2025, 2026

- Gained hands-on exposure to Serverless Architecture patterns including AWS Lambda event-driven design and API Gateway configuration, directly applicable to backend optimization in personal projects.
- Attended deep-dive sessions on Amazon SageMaker for ML model deployment and Cloud Security best practices, informing IAM configuration decisions in Codesuu's AWS setup.
